

SECURITY 'GRIPPER' PLUGS FOR MONITORING WELLS

'Gripper' plugs are designed to securely seal monitoring wells from the inside using a rubber expanding gasket to create a watertight seal. Padlock or safety lockout tag compatible.

- Nylon body - no metal corrosion or rust
- Designed for easy well installation
- Simple to use, reliable locking system, padlock not provided
- Easy on, easy off wing nut
- Bright safety colouring
- Lower eyes for hanging instrumentation on, data loggers, bailers etc
- Prevents flow from surface into the well

Applications: • Environmental monitoring • Well security • Well sealing

Part Number	Pipe ID mm	To Fit Pipe
GP19GP	19	19 mm piezo pipe
